

BARIC TABLETS

MATERIALS

SET 1

Six light brown wooden tablets each weighing 20 Gms

SET 2

Six brown wooden tablets each weighing 30 Gms

SET 3

Six dark brown wooden tablets each weighing 40 Gms

A blindfold

AIM

DIRECT AIM: Refinement of the baric sense

INDIRECT AIM: None

HOW TO WEIGH?

Hold the tablet on the tip of all the 5 fingers, and move both your hands up and down to feel the weight of the tablets.

PRESENTATION

- a) Invite the child, introduce the material and ask the child to bring any 2 of the sets to the working table.
- b) Hold the tablets, one in each hand, on the tips of all the 5 fingers and feel the sense of weight. (Light-heavy)
- c) Extend your hand and drop the tablet on the child's finger tips and ask the child to take the sense of weight from the tablets.
- d) Next, place the tablets randomly on the table.

BARIC TABLETS

e) Take two tablets from each set and establish a place in the top corners of the table.

f) Wear your blindfold

g) Begin weighing and put them on the table in their respective places.

h) Once it's done, put the tablets randomly again on the table.

i) invite the child to wear their blindfold and do the activity.

EXERCISE 1: Child's own activity as shown in the presentation
